

Helping Schools and Communities Keep Our Kids Safe

CPSSC, and its parent company, NASRO, are not-for-profit organizations, committed to keeping our schools safe.

Creating Safe Schools: CPSSC

Who We Are

Our commission and staff of assessors come from the fields of education and school-based policing. We are Ph. D's, Ed. D.'s, Clinical Psychologists, School Administrators, School Resource Officers (SROs), and SRO Supervisors and Managers. All are well-versed in the best-practices in the field of school safety. One of our foundational premises is, "Success in any human system is dependent upon the quality of relationships and the opportunities for participation".

What We Do

Our CPSSC team establishes and maintains quality relationships and opportunities for participation with our clients. Whether through a negotiated contract or in response to a Request for Proposal (RFP), our team will communicate closely with you to identify needs and clarify expectations. Only then will the Assessment Team begin implementation. This defines CPSSC's School Safety Continuous Improvement Process (CIP)®.

CPSSC does something that many other consultants services do not - we provide you with choices and methodologies for school safety protocols. And we are available after the services have been performed.

CPSSC will conduct assessments and consult on solutions, PLUS we can also train your staff, thereby providing you with the tools to succeed.

Why Choose CPSSC?

As an educational professional you know how important selection is when deciding personnel and service providers. When the best choice is made, everyone wins.

CPSSC can assist you with all of your school safety needs, including:

- Threat Assessment
- Data Analysis
- Improved School Climate
- National Incident Management System (NIMS)
- Safety Policy and Protocol Analysis
- Site Assessment utilizing CPTED methodologies
- School Emergency Response Teams (SERT)
- School Shooter Prevention
